(54) VOICE INDICATING ADHESIVE TAPE

(57) Abstract:

PROBLEM TO BE SOLVED: To provide an adhesive tape with built-in non-contact type data reading integrated circuits, which can be easily fitted.

SOLUTION: The adhesive tape has an adhesive layer of 0.3-1.0 mm thickness and a base material layer of 1.0-3.0 mm thickness, and the adhesive agent of butyl series or acrylic series is spread via a release paper. The non-contact type data reading integrated circuits

are distributed and fixed at minimum dispersed distance twice as long as the sensible distance of the non-contact type data reading integrated circuits on the adhesive layer of the adhesive tape.
